WEDDING FAVORS

We believe your choice for wedding gifts should be stress-free & in alignment with your core values: natural, local, fair trade & eco-friendly.

We offer a simple variety of all-natural, handmade soaps that are tastefully packaged to fit your wedding's unique character.

It's something all of your guests can use & enjoy.

Our Philosophy

We know that sometimes too much choice can be more stressful than helpful. So, we've developed a simple design process that gives you flexibility & creativity when you want it, but clear direction when you need it.

Example: Muslin Bag Favors

1. Pick the essential oil blend and stamp image for your soap, if any.

2. Write a personal message to your guests which we'll add to your custom label.

3. Approve the bag design created to match your wedding color scheme & style. Specific images & fonts welcome.

A UNIQUE TOUCH FOR YOUR WEDDING

We specialize in wedding favors that are both handmade & sophisticated, eco-friendly & decorative, memorable & simple. You can have the best of both worlds.

WEDDING FAVORS

Great when either placed at individual table settings or together at a gift table. Also well suited for welcome gift baskets or hotel room goodie bags.

"I was so happy to receive a wedding favor that I could actually use. My husband & I both have such dry skin, but the goat milk soap you gave us has really helped. Sounds corny, but we think of you & the wedding each morning when we use the soap. Good memories!"

BRIDESMAIDS GIFTS

It can be hard to find a large gift item that will be suitable for all of your bridesmaids. While not everyone has the same taste in jewelry or handbags, everyone is sure to love (and use) our skin care products.

The soaps, for example, are good for hands, body & face & are suitable for even the most sensitive or dry skin.

BRIDAL SHOWER FAVORS

What's a bridal shower without cute little favors? Plus, ask us about our custom shaped soaps especially made for bachelorette parties.

"The favors were perfect! They arrived well before the shower & were a total hit! I thought it was so great you found both of the decorative papers from the invitations. My sister really liked them & thought they were so special. I am also loving the soap & how good it feels on my face :-)"
